

PICTURESMITH **STUDIO**

# THE STUDIO

Our basement studio is ideal for stills, packshots and stop motion shoots.

The largest shooting area is easily separated into two blacked-out stage areas.

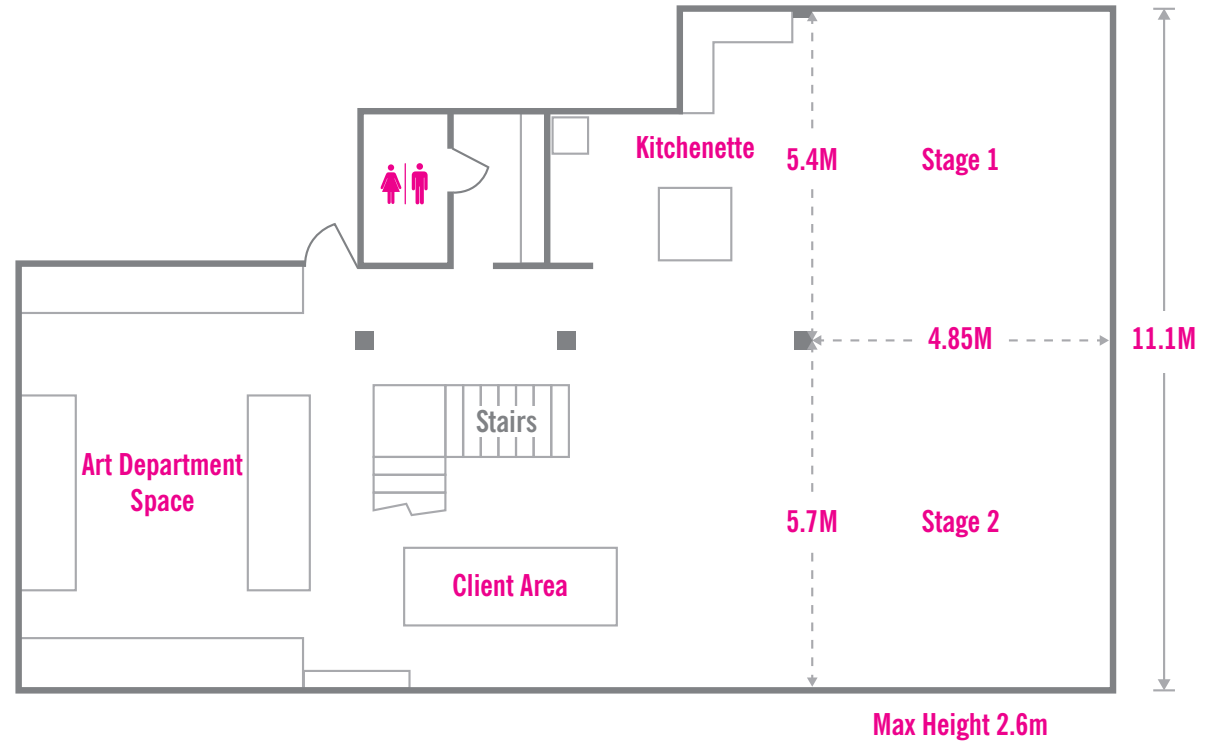

Our art department is designed to help you finalise artwork for your shoot.

We are close to Broadway Market's restaurants, bars and coffee shops.

## Studio includes

- 2 x stage areas
- Work space with a large table and whiteboard
- Art department space
- Kitchenette
- WiFi
- Electrical Supply: 2x32amp 3-phase socket and multiple 13amp sockets
- Blackout drapes

Please note, we don't have lift access, and we are not a sound stage.

## Green Shoots

To ensure our carbon footprint is as small as possible, we use 100% renewable energy. We are also carbon balanced by **Tree Nation** and members of **1% For The Planet**.

In addition, we arrange for **Quantum Waste** to handle all recycling, food and other waste.

You can be confident that your shoot is as green as possible.
